

Policy: Career and Placement Services Policy

Due to the small size of the Program, a specific career and placement service is not provided.

St. James Mercy Hospital is a member of Catholic Health East System. Catholic Health East is comprised of 21 other health care organizations. These healthcare organizations are located on the east coast from Maine to Florida.

Students are provided information and possible assistance through our Human Resources Department for career placement at these institutions.

Also the program works together with our clinical sites and organizations within our location on behalf of career placement for the students.
